**AIM HIGH**  **PARKER®**

For over 100 years, Parker has been at the forefront of design, producing some of the best pens in the world. More than fluent tools, they are also there wherever we need them most – always making a contemporary statement, relevant to each generation. This has led to Parker pens achieving iconic status, sitting proudly amongst some of the best-designed and most admired products of the modern era.

Like the car you drive, the watch you choose and the shoes you buy, the pen you use can send a signal about you. The diversity of the broad Parker product range helps different individuals express their progressiveness in different ways.

The colours and finishes of writing instruments featured in this catalogue may differ slightly from actual products due to variation in print reproduction. Parker reserves the right to amend product specifications without notice. Parker offers a wide range of models and finishes, therefore the full range may not be available in every country or outlet.

## WRITING MODES

There are four main writing modes available within the Parker range – Fountain Pen, Roller Ball, Ball Point Pen and Pencil. Each mode complements the others, offering the consumer the opportunity to use individual modes or to create a matching set. In addition, Parker offers a smooth writing Gel Ball Point refill.

### FOUNTAIN PEN

Parker fountain pen ink flow is controlled by a precision-engineered feed and collector system. There is a choice of fountain pen nibs and nib grades to suit individual tastes and writing techniques.

### ROLLER BALL

The standard roller ball refill uses a free ink system which is similar to that of a fountain pen. A sophisticated feed and collector system carefully regulates the flow of ink to the writing point that allows the user to write with the lightest of touch.

### BALL POINT PEN

Still one of the most convenient forms of writing, the Parker ball point pen has a textured tungsten carbide writing point which gives clean, clear writing on most surfaces. A gel ball point refill is available that offers consistently smooth writing and intensity of colour and fits all Parker ball point pens.

### PENCIL

The Parker pencil has a strong, reliable continuous lead feeding system that is easy to use. Within each pencil there is a supply of spare leads plus a replaceable eraser. Most Parker pencils are fitted with 0.5mm leads which allow the user to write without needing to sharpen the point.

# PARKER®

## PARKER WARRANTY

A Parker writing instrument is a precious personal possession, an extension of its owner's personality. For that reason, the Parker Warranty is a very special one. It is our commitment to a lifetime of service in writing and states...

**"Your Parker writing instrument is guaranteed against failure due to faulty materials or workmanship throughout the life of the original owner."**

PARKER®

Born in the age of Jazz and Art Deco, the Duofold reflects the opulence and iconography of its origins. It is a pen of exceptional character and distinctive appearance, exuding the quality and luxury of outstanding craftsmanship. It is the face of creation and reassured confidence.

**Presidential**  
Hand crafted in solid, hallmarked 18K gold with deep Godron pattern engraving, with a contrasting, slim band configuration in lustrous black.

INFLECTION

sharp, precise and determined

Inflection reveals a confident spontaneity that is positive, determined and demands success. Those who relish a little contrast in life will find this expressive combination of form and function captivating.

#### Fountain Pen [FP]

- Fountain pen fitted with a 23K gold plated nib.
- Standard nib grades available in extra fine, fine, medium and broad.
- Fitted with twin-channelled ink feed and collector system.
- Fitted with de luxe piston fill converter for bottled ink.
- Convertible for use with ink cartridges.

#### Roller Ball [RB]

- Cap on/cap off, supplied with standard roller ball refill.

#### Ball Point Pen [BP]

- Twist action, fitted with standard ball point refill.

#### Pencil [PCL]

- Two-stage, twist action continuous feed pencil – first stage lowers the lead support tube, second stage the lead itself.
- Lead and support tube retract fully to prevent snagging.
- Cushioned mechanism and support tube combine to minimise lead breakage.
- 0.5mm HB leads and replaceable eraser (Type EI6).

**Stainless Steel GT**  
The smooth, satin sheen of the elegant but durable stainless steel finish is complemented by contrasting 14K gold plated trim and 23K gold plated, stainless steel nib.

FP  
RB  
BP  
PCL

**Black\***  
Multiple layers of intense black lacquer applied to a stainless steel base. Contrasting 14K gold plated trim and 23K gold plated nib.

FP  
RB  
BP  
PCL

**Radiant Yellow**  
A rich, pearlised yellow finish is achieved through the application of multiple layers of translucent lacquer enhanced with a subtle satin varnish onto a stainless steel base. Complemented with 14K gold plated trim and 23K gold plated nib.

FP  
RB  
BP

**Sunny Red**  
A hot, vibrant colour is achieved through the application of multiple layers of translucent lacquer enhanced with a subtle satin varnish onto a stainless steel base. Complemented with 14K gold plated trim and 23K gold plated nib.
